RESPONSE

In response to the action mailed December 21, 2001, please amend the application as follows:

In the claims:

Please amend claims 1, 11 and 21 as follows:

1. (Amended Twice) A method of determining an opening price for a product traded in a trading system, the method executed over a distributed network computer system, said method comprising:

receiving orders from customers for the product, the orders specifying a quantity and whether the order is a buy or sell order;

determining an imbalance condition between received buy orders and received sell orders for the product; and

posting an allocation message to market maker participants to communicate the market maker participants' expected allocations of the imbalance for execution by the market maker participants at an initial opening of the market on the side of the imbalance in the event that the imbalance exists at the opening. --
